

We are constantly striving to improve services to our resident students. Check out the details!

Get ready to munch, there's a MicroFridge in your room!

All students assigned to first-year residence halls will have the convenience of a combination refrigerator and microwave unit in their rooms!

The cost of the unit is included in your housing costs, which you pay on your term bill. Don't worry about bringing a refrigerator on campus because your MicroFridge will be there and ready when you arrive.

Just plug in your phone and call!

As a service to students, Rutgers centrally manages telephone services for all undergraduate residents. Rutgers housing facilities have year-round telephone service and each resident is assigned an eight-digit personal authorization code allowing personalized, confidential, monthly billing for any billable calls. Basic service includes call waiting, on-campus call forwarding, and three-way calling. Caller ID and voice mail can be ordered at a slight additional cost.

The Student Telephone Service (STS) provides at least one jack and a dial tone in each apartment, suite, or room when you move in. The number should be written on the jack (dial 8958 if it is not). Bring along your choice of touch-tone telephone.

You will receive a detailed mailing from the STS before the beginning of the academic year, including your personal code, terms of use, and full dialing instructions. Fixed fees for basic telephone service are included in the housing fees for undergraduate residents. The main Student Telephone Service office is located in Lucy Stone Hall, room A130 (next to the Cashier's Office) on Livingston Campus. To reach the office regarding questions, repairs, or billing problems, dial 732/445-6915. They'll be happy to help you.
